ABOUT

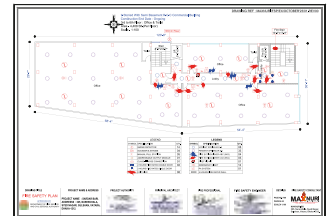

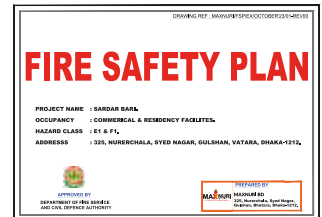

To elevate the existing fire safety and engineering standards to a global level, MAXNURI SDN, BHD was launched in 1997 as an Engineering Safety Solutions Company in Kuala Lumpur, Malaysia. The company has been involved in most major construction projects in Kuala Lumpur, Malaysia (KLCC Twin Towers, KLIA Airport, KL Center, Sunway Mall, Putrajaya New Township, etc. including some projects in Singapore) and has earned a reputation for providing MEP systems and various technical supplies and services in construction. In line with that, Maxnuri BD Limited started operating as an associate concern of MAXNURI SDN, BHD in Bangladesh in 2020. MAXNURI BD LTD in Bangladesh is dedicated to following the working experience and modernity of advanced countries like Malaysia and Singapore. Our primary objective is to serve the country and the nation rather than focusing on business. We are available 24 hours a day to serve you.

Design and Consulting by MAXNURI BD

MAXNURI BD is a registered fire safety consultant service company accredited by the Bangladesh Fire Service and Civil Defense Authority (Tracking number: 2308161). Our core expertise lies in the design and planning phases of industrial, commercial, and residential areas. We are dedicated to maximizing the utilization of available resources in the most efficient way. MAXNURI BD places a strong emphasis on sustainability by integrating cost-effectiveness, quality considerations, energy savings, and environmental concerns into the design and planning processes.

- ▶ Comprehensive fire safety consulting services
- ▶ Preparation of fire safety plans
- ▶ Fire license approval and renewal
- ▶ Fire risk assessments
- ▶ Electrical safety assessments
- ▶ Fire simulations
- ▶ Hazard mapping
- ▶ Fire safety design and drawing
- ▶ Conducting fire safety inspections and reporting
- ▶ Fire safety training and auditing
- ▶ Building safety management and consultancy

Over the years, MAXNURI BD has consistently supported various organizations by providing sustainable, high-quality safety consultant services, including timely maintenance and fire drills. Since our inception, Maxnuri BD Ltd has maintained a diversified focus, all while never compromising on the quality of our work.

RAHMAN ENTERPRISE

Where Quality is Delivered on Time

- ▶ Sub-Station (Transformer, HT Switch Gear, LT Switch Gear & PFI Plant)
- ▶ Industrial Automation (PLC, VFD/Inverter, HMI, SCADA, Sensor)
- ▶ Utility Machineries (Generator, Boiler, Air Compressor, Chiller, HVAC, Central A/C)

Replacing fire extinguishers at the cost of refilling

we take pride in being the pioneers in Bangladesh, aligning our practices with global standards in fire safety. Our innovative approach involves replacing fire extinguishers at the cost of refilling them, ensuring optimal fire safety measures every year.

Our commitment extends to providing a wide range of fire-fighting equipment, including fire extinguishers, with flexible pricing options to accommodate our customers' convenience. Whether you need them for short-term or long-term purposes, we offer rental services with several complimentary service options.

The cost structure is subject to negotiation, depending on the specifics of the products and services required. Here's a brief overview of our offerings:

- 5 Kg ABC Fire Extinguisher
- 5 Liter CO2 Fire Extinguisher
- 10 Liter Foam Fire Extinguisher

We maintain a well-stocked inventory, ensuring the availability of these fire safety essentials at all times. Furthermore, we operate around the clock, providing 24/7 nationwide services to address your fire safety needs.

Introducing Cold Fire Extinguisher: An Environmentally Friendly Solution for Fire Safety

Cold Fire Extinguisher, a product of the Company of America, is a highly effective fire safety solution designed to safeguard human lives and valuable resources. Notably, this extinguisher is a 100% environment-friendly product, aligning with modern sustainability goals.

One of the remarkable features of a Cold Fire Extinguisher is its exceptional efficiency in fire suppression. Compared to conventional fire extinguishers, it requires significantly fewer agents to extinguish fires and it can be used to extinguish any kind of fire. This not only makes it a highly cost-effective choice but also minimizes any adverse environmental impact.

The journey of the Cold Fire Extinguisher began in the year 2020 when it was officially introduced to the market. The product was inaugurated by Mr. Asaduzzaman Khan Kamal, the Honorable Minister of Home Affairs of the Government of Bangladesh, further emphasizing its significance in enhancing fire safety measures.
